MOBILE ENERGY

REDEFINING THE MOBILE SUBSTATION INDUSTRY

Mobile Energy recently completed the purchase a 180,000 square foot facility in Woodstock, Ontario in order to expand our production capacity to keep up with demand. Our fully outfitted facility maintains consistent high standard of quality manufacturing. We take pride in manufacturing a high quality and robust product that is sure to exceed the customers' expectations.

Premium Substations

Mobile Energy Inc. is one of North America's premier suppliers of mobile substations, specializing in designing and manufacturing lightweight compact units.

LOCALLY OWNED AND OPERATED

WE ARE PROUDLY SERVING NORTH AMERICA

MOBILE ENERGY

OUR PRODUCTS

Mobile Energy Inc. has been a specialty manufacturer of high-performing mobile substations, mobile circuit switchers and mobile circuit breakers for nearly 20 years. Our mobile transformers feature up to 60 MVA and 230 KV. Our design philosophy focuses on service and mobility. Each unit is custom designed to your exact specifications. While other manufacturers may adapt traditional transformers and place them on wheels, our core business is mobile power technology.

MOBILE SUBSTATIONS

Special Features and Options include:

- High-grade steel
- Automatic cable reeling
- Multiple feeds
- Steerable rear axles for improved maneuverability
- Rotating transformer turntable
- Hydraulic leveling support legs
- Roll-out mechanism for in-service and transit
- Safety fencing
- + more

**OUR DESIGN FOCUSES ON
SUPERIOR FUNCTIONALITY,
SAFETY AND EASE OF USE**

SKID-MOUNTED SUBSTATION

Like our mobile substations, skid-mounted substations are completely custom designed and built based on your specific needs. Our design focuses on superior functionality, safety and ease of use.

MOBILE SWITCHER & BREAKERS

Special Features and Options include:

- Rotating circuit breakers to allow for transport and in-service operation
- Rack-out mechanism for circuit switchers and disconnect switches
- Leveling legs and customized cabinets to facilitate storage and controls
- Customized mounting to suit required equipment

MOBILE ENERGY

OUR SERVICES

Whether you need minor repairs, upgrades or a complete refurbishment of your Mobile Substation, the Mobile Energy team has you covered. From the design stage to the manufacturing, we offer a complete spectrum of mobile solutions.

REFURBISHMENT

All electrical systems require regular maintenance to ensure safety and optimum functionality. Mobile Energy services all products we design and build.

Whether you need:

- Simple cleaning and check up
- Rewinding of transformer
- Minor repairs
- Complete refurbishment

We are at your service.

UNIT UPGRADES

When your mobile power technology requires a boost or increased functionality to do the job, Mobile Energy can:

- Upgrade your system based on your requirements
- Minor upgrades may be performed on site
- More extensive retrofits may need to be performed at our manufacturing facility

Regardless, we'll work with you to make the experience as convenient as possible.
